

Vegetable Soap 930

Liquid soap made from vegetable oils for oiled and waxed timber floors, worktops and linoleum indoors. Diluted 30–50 ml in 10 litres of water, it cleans without washing the oil out of the finish.

Fat-replenishing universal cleaner for maintaining wooden floors and worktops, also suitable for tiles, laminate, PVC floors, untreated linoleum and lacquered surfaces indoors. Applied undiluted, it dissolves stubborn dirt. A vegetable fatty-acid soap based on old recipes. Liquid, very economical, strong cleaning effect, highly fat-replenishing. Made from purely plant-based, renewable raw materials.

Drying Time

Not a coating, so nothing cures. Let the floor dry before walking on it.

Coverage

Approx. 30–50 ml of soap per 10 litres of water. One litre makes 20–33 buckets of wash water.

Tool Cleaning

Rinse tools, mops and buckets with water.

Storage

Store cool and dry. Keeps for approx. 2 years.

Disposal

Dispose of according to official regulations. Disposal code: EAK/EWC 07 06 01. GISCODE: GE 10.

Technical Qualities

Fat-replenishing: cleans an oiled finish without washing it bare

Concentrate: 30–50 ml in 10 litres of water

Two ingredients: water and potassium soap of vegetable oils

Pairs with Floor Milk 920 after every two to four washes

Also the brush and tool cleaner for LEINOS water-based paints

Composition

Water, Potassium soap of vegetable oils.

Safety Recommendations

Causes skin irritation and serious eye irritation (GHS-07). Wear protective gloves and eye protection when handling the concentrate.

If in eyes: rinse cautiously with water for several minutes, remove contact lenses if easy to do, and keep rinsing. If irritation persists, get medical advice.

Keep out of reach of children. Avoid release of the concentrate to the environment.

Vegetable Soap 930

Liquid soap made from vegetable oils for oiled and waxed timber floors, worktops and linoleum indoors. Diluted 30–50 ml in 10 litres of water, it cleans without washing the oil out of the finish.

Application Instructions

Suitable substrates: Oiled and waxed timber floors, Wooden worktops, Untreated linoleum, Tiles, laminate and PVC floors, Lacquered surfaces.

Not suitable for: Outdoor surfaces — this is an indoor cleaner, Oiled or waxed surfaces at more than 30–50 ml per 10 litres — the alkaline soap stains the finish.

Sweep or vacuum first, so grit is not dragged across the finish by a wet mop.

Oiled, waxed and untreated-linoleum surfaces: at most 30–50 ml of soap in 10 litres of water. Damp-mop with a well-wrung mop.

Machine deep clean of oiled or waxed floors: soap 1:1 with water, then rinse well with clean water.

After two to four washes, follow with LEINOS 920 Floor Milk.

Coats & recoating: A cleaner, not a coating: there are no coats. On oiled and waxed floors, follow with Floor Milk 920 after roughly two to four washes.

Tools: Soft broom or vacuum, Bucket, Flat mop, Cotton cloths, Single-disc floor machine (LEINOS Floorboy) for a machine deep clean.
